**AUDUBON MACHINERY CORPORATION
ACQUIRES STARBOARD SUN CORPORATION**

Audubon Machinery Corporation announces that it has acquired Starboard Sun Corporation. Starboard Sun Corporation has two divisions which will continue to operate independently under Audubon.

One division *Starboard Sun* sells Micro Wind Turbines and Solar Panels as well as Hybrid Combination Wind-Solar systems for off-grid, renewable energy power generation. The company currently has a strong presence in Offshore Marine Applications and sells equipment through their www.onboardpv.com website, but Audubon intends to expand marketing efforts into a number of other commercial and industrial markets.

The other division *IMT Solar* sells Sun Simulators, Solar Flares and Calibration Equipment used in test, installation and setup of Photo Voltaic (PV) Solar Panels for these applications. Its markets include Quality Testing Labs, Solar Panel Manufacturers and System Installers.

Audubon Machinery is planning significant new investment in these businesses including the development of a new and larger Micro Wind turbine, relocation of manufacturing operations from Bruhl, Germany to North Tonawanda, NY and expanded sales and marketing initiatives.

Audubon Machinery Corporation is a diversified manufacturing company with its headquarters and production facility located in North Tonawanda, NY. Its 42,000 ft² building was the first factory in New York State to be given a "Green Building" Certification by the USGBC
